We do not release member information for mailing lists etc.

The Association now has an e-mail address that may be used to contact us. We would also encourage all members who are on line to elect to receive mailings from us through e-mail. Our mailing process is very labor intensive. A written communication must be copied, envelopes addressed, filled, stamped, sealed, and sorted for mailing. It can often take a week or more from the writing to the receipt of a document.

By electing to receive communications by e-mail you will receive items in a more timely manner. You will also receive additional mailings when there are developments of interest to report and a regular mailing is impractical. There will also be a considerable cost savings for the Association. Our email list is confidential.
